

LUNA THE LIBRARY CAT

YEAR 3: Comprehension Worksheets

LUNA THE LIBRARY CAT

Luna was not an ordinary cat. She lived in the town library, where she spent her days curling up on bookshelves, walking across keyboards, and sneaking into storytime sessions. The children loved her. Every afternoon, they would read aloud to Luna, who purred softly and listened as if she understood every word.

One day, Luna went missing. The librarian, Miss Green, and the children searched the entire library. They looked under desks, behind books, and even in the cupboards. Just when they were about to give up, a little boy named Max heard a soft meow coming from the reading tent in the corner. Inside, they found Luna fast asleep on a pile of storybooks.

Miss Green laughed, and Max gave Luna a gentle cuddle. From that day on, Luna had her own little bed in the reading tent, so she'd always have a cosy place to nap while listening to stories.
